

## Pests and Pesticides in Child-serving Facilities: An IPM Newsletter

### School IPM Logbooks for Every Public School in the State? Need Help to Deliver to Each School.

Karen M. Vail

As part of this year's USDA EIPM-CS Coordination Grant we are producing [school IPM logbooks](#) for each primary and secondary public school in the state. Deliveries have begun this week. See tables on the next pages for delivery schedules. We ask that the Facilities Managers check to see if the books have arrived and that they are dispersed to each school. We've found the receptionist at the school's front desk is the best overseer of the IPM logbook. Students, teachers and other staff find it easy to report pests and PMPs have a central location to check the pest sighting log in this location. Adding an extra [pest sighting log](#) to the kitchen is also beneficial. We want to make sure every school gets logbooks, so please let us know if your school system has been left off this list and we'll make arrangements to get the books to you.

E&PP Info Note#704

**Precautionary Statement**

To protect people and the environment, pesticides should be used safely. This is everyone's responsibility, especially the user. Read and follow label directions carefully before you buy, mix, apply, store or dispose of a pesticide. According to laws regulating pesticides, they must be used only as directed by the label.

**Disclaimer**

This publication contains pesticide recommendations that are subject to change at any time. The recommendations in this publication are provided only as a guide. It is always the pesticide applicator's responsibility, by law, to read and follow all current label directions for the specific pesticide being used. The label always takes precedence over the recommendations found in this publication.

Use of trade or brand names in this publication is for clarity and information; it does not imply approval of the product to the exclusion of others that may be of similar, suitable composition, nor does it guarantee or warrant the standard of the product. The author(s), the University of Tennessee Institute of Agriculture and University of Tennessee Extension assume no liability resulting from the use of these recommendations.
